What is this product?

Type
Aegon High Yield Global Bond Fund is a sub-fund of Aegon Asset Management Investment Company (Ireland) plc.

Term
The term of the Fund is unlimited and therefore there is no maturity date. The Fund Manager / Manufacturer may decide to terminate the Fund unilaterally as set out in the Prospectus of the Funds. Situations that give rise to an automatic termination are not foreseen in the Funds Prospectus, but may be foreseen by laws and regulations applicable to the Fund.

Objective: to maximise total return (income plus capital).

Policy: invests predominantly in high yield (higher risk) bonds, investment grade (lower risk) bonds and cash. Bonds will be issued by companies and governments worldwide.
The Fund is actively managed.
The Fund may also invest in derivatives (financial contracts whose value is linked to an underlying asset).
The Fund may invest up to 20% in emerging markets. In investment terms, this means those economies that are still developing.
The Fund may invest up to 20% in contingent convertible bonds (CoCos) being a type of bond which has the potential to convert to equity dependent/contingent upon a specific event.
Within the limits set out above, the Fund has discretion in its choice of investments and is not restricted by market sector. It may also hold a limited range of other investments and it is not constrained by any benchmark or index.
The Fund may use investment techniques to manage risks and costs. These techniques include 'hedging' (using derivatives to reduce the risk associated with making investments in other currencies). Up to 20% of the Fund may not be 'hedged' i.e. the Fund is exposed to the risks of investing in another currency for this portion.
The Fund adheres to environmental, social and governance ('ESG') criteria for all of its bond investments (excluding index derivatives and ancillary cash) which combines screening such against exclusionary criteria as more fully described in the Fund supplement along with ESG risks. The Fund shall not be permitted to invest in issuers which the Investment Manager considers to have a negative impact on society and/or the environment and excludes such issuers that fall within either the "exclusion list" and "watch list" (the Fund will commit to a strict application of the watch list and treat it as a hard restriction limit) referenced in the Fund Supplement. Investments which pass the screening criteria will form the investment universe. The Investment Manager will use its proprietary ESG framework to assign an ESG category to each bond investment ranging from 1 to 5, with 1 being the highest category and 5 the lowest. The Fund will invest at least 80% of its assets in those securities with ESG categories 1, 2, or 3, with up to 20% in securities identified as ESG category 4 or unrated. The Fund will not invest in securities with ESG category 5. The fund promotes E/S (i.e Environmental and Social) characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR).

-Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making.
-The management team takes environmental, social and governance (ESG) criteria into account in investment decisions, but not in a preponderant manner.
-The investment decisions taken may therefore not comply with ESG criteria.
- Environmental, social and governance (ESG) criteria are one of the components of management but their weight in the final decision is not defined in advance.
-The positive contribution of environmental, social and governance (ESG) criteria can be taken into account in investment decisions, without being a determining factor in this decision making.
The fund promotes E/S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR).

Recommended holding period: 3 years

Investors can subscribe and redeem daily. The Company may levy an initial charge of up to 5% of the Net Asset Value per Share in connection with the subscription of Class A, D, G and X Shares of the Fund. This fee will be retained for the benefit of the Global Distributor. There can also be a Repurchase Charge of up to 3% of the redemption amount on Classes A, D, G and X Shares classes. The Fund may suffer dilution (reduction in the value of the assets as a result of the costs incurred in dealing in its underlying investments and of any spread between the buying and the selling prices of such investments which is not reflected in the issue or redemption price paid by or to Shareholders). With a view to countering this (which, if it is significant, disadvantages existing or continuing Shareholders), the Manager may make an adjustment (Dilution Adjustment) to the Share price on a daily basis.
