

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

### Macquarie Emerging Markets Fund Class A USD

A sub-fund of **Macquarie Fund Solutions**, a Société d'Investissement à Capital Variable (the "SICAV").

**ISIN:** LU1818605963

**Name of Manufacturer:** Lemanik Asset Management S.A.

**Address:** 106, route d'Arlon, L-8210 Mamer, Grand Duchy of Luxembourg

**Website:** <https://www.lemanikgroup.com/>

Call (+352) 26 39 60 for more information.

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising the SICAV in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

Lemanik Asset Management S.A. is authorised in the Grand Duchy of Luxembourg and regulated by the CSSF and is the management company of the SICAV (the "Management Company").

The document was published on 30 December 2024.

**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

**Type:** Shares in Macquarie Emerging Markets Fund (the "Sub-Fund"), being a compartment of Macquarie Fund Solutions, a Luxembourg incorporated investment company with variable capital qualifying as Undertaking for Collective Investment in Transferable Securities (UCITS).

**Term:** The share of the Sub-Fund is issued in registered form. The Sub-Fund does not have a fixed maturity date and is established for an unlimited duration though it may also be dissolved by compulsory redemption upon a decision of the Directors (i) if its Net Asset Value has decreased below the minimum holding deemed appropriate for its existence in the interest of the Shareholders, or (ii) if a change in its economical or political situation would have material adverse consequences for its investments, or (iii) in order to proceed to an economic rationalization.

**Objective:** To provide investors with a long-term capital appreciation by investing in securities in emerging markets.

**Portfolio Securities:** Under normal conditions, the Sub-Fund primarily invests in a carefully selected and diverse range of transferable securities of issuers located in emerging markets. At least 80% of the Sub-Fund's net assets will be in investments of issuers of emerging market countries. The Sub-Fund primarily invests in a broad range of equity securities (shares and other similar instruments) of companies located in emerging market countries. The Sub-Fund may invest in companies of any size and may invest more than 25% of its net assets in the securities of issuers located in the same country. The Sub-Fund may invest in financial derivative instruments for efficient portfolio management. The Sub-Fund may be leveraged up to 30% of its net asset value as a result of its use of derivative instruments.

**Investment Process:** The investment manager is actively managing the Sub-Fund and has all discretion with respect to the composition of the portfolio. The investment manager believes that although market price and intrinsic business value are positively correlated in the long run, short-term divergences can emerge. The Sub-Fund seeks to take advantage of these divergences through a fundamental, bottom-up approach. The Sub-Fund invests in securities of companies with sustainable franchises when they are trading at a discount to the investment manager's intrinsic value estimate for that security. The Sub-Fund defines sustainable franchises as those companies with potential to earn excess returns above their cost of capital over the long-term. Sustainability analysis involves identification of a company's source of competitive advantage and the ability of its management to maximise its return potential. The investment manager prefers companies with large market opportunities in which to deploy capital, providing opportunities to grow faster than the overall economy. Intrinsic value assessment is quantitatively determined through a variety of valuation methods including discounted cash flow, replacement cost, private market transaction, and multiples analysis.

**Benchmark:** MSCI Emerging Markets Net Return Index. The benchmark is a performance reference and the Sub-Fund's underlying portfolio may differ significantly to the benchmark composition.

Income earned by the Sub-Fund is accumulated in the net asset value of this class and not distributed.

**Intended retail investor:** This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 to 7 years. This product is for retail investors with good investment knowledge, seeking long-term capital appreciation through an actively managed fund invested in emerging markets equities. Investors should be looking to invest for at least five to seven years and should appreciate that their capital will be at risk and that the value of their investment and any derived income may fall as well as rise. Particular performance risks include investing into emerging markets equities and adverse market conditions.

Depository: CACEIS Bank, Luxembourg Branch

**Documents and other information:** This key investor information may not contain all the information you need. For any additional information on the Sub-Fund, on other share classes of this Sub-Fund and on other sub-funds, or to obtain a free copy of the Prospectus or the annual and semi-annual financial reports, and other practical information, please visit <https://www.macquarieim.com/investments/products/macquarie-fund-solutions> or contact Macquarie Fund Solutions at 11/13, Boulevard de la Foire, L-1528 Luxembourg, Grand Duchy of Luxembourg. These documents are available in English.

**Share prices:** Most recent share prices of the Sub-Fund are published on the national website of Morningstar in your country.

## What are the risks and what could I get in return?

### Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the Sub-Fund's capacity to pay you.

Other material risks relevant to the Sub-Fund not included in the summary risk indicator are set out in the Prospectus available in section "Risk Considerations".

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		USD 10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 2 080	USD 1 980
	Average return each year	-79.20%	-27.67%
Unfavourable	What you might get back after costs	USD 5 970	USD 7 090
	Average return each year	-40.30%	-6.65%
Moderate	What you might get back after costs	USD 9 830	USD 11 000
	Average return each year	-1.70%	1.92%
Favourable	What you might get back after costs	USD 16 040	USD 21 570
	Average return each year	60.40%	16.62%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This product cannot be easily cashed in. If you exit the investment, you may have to pay extra costs.

Unfavourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 31 October 2017 and 31 October 2022.

Moderate scenario: this type of scenario occurred for an investment using a suitable benchmark between 29 December 2018 and 29 December 2023.

Favourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 26 February 2016 and 26 February 2021.

## What happens if Lemanik Asset Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of the investment manager, the Management Company, as the Sub-Fund is considered to be a separate entity with segregated assets.

The SICAV is not part of any investment compensation or guarantee scheme.

## What are the costs?

The party advising on or selling you this product may charge you other costs. If so, this party will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	USD 955	USD 2 062
Annual cost impact (*)	9.6%	3.6% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 1.9% after costs.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. These costs are already included in the price you pay. This includes distribution costs. This is the most you will be charged. The party selling you the product will inform you of the actual charge.	Up to USD 500
Exit costs	2.56% of your investment before it is paid out to you. These costs are already included in the price you receive.	USD 256
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.92% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 192
Transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 7
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	USD 0

## How long should I hold it and can I take money out early?

Recommended holding period: 5 years

A shorter holding period can cause a loss due to short-term variations in the value of securities and exchange rates.

You can place orders to buy or sell Sub-Fund shares at any time. Orders received on any given Luxembourg business day before 6 p.m. Luxembourg time will be processed at that day's share price.

When selling early, you will not incur any fees or penalties that are related to disinvestments within the recommended holding period. Please refer to the exit costs described in the section "What are the costs?".

## How can I complain?

Each shareholder who is not satisfied with its experience as an investor in the SICAV should contact the Management Company in accordance with the applicable complaints handling policy which is available at <https://www.lemanikgroup.com/governance-asset-management/>.

Each shareholder may also have the right to complain to the Consumer Protection department of the Luxembourg regulator CSSF which is available at <https://reclamations.apps.cssf.lu/index.html?language=en>.

Investors can also contact Lemanik Asset Management S.A. at 106 route d'Arlon, L-8210 Mamer, Grand Duchy of Luxembourg, or [complaintshandling@lemanik.lu](mailto:complaintshandling@lemanik.lu), to make a complaint.
