Objective: To provide investors with total returns through long-term capital appreciation and current income above the benchmark on a rolling three-year basis.

Portfolio Securities: Under normal conditions, Macquarie Global Listed Real Estate Fund (the "Sub-Fund") provides exposure to a diversified portfolio of global listed real estate, primarily real estate investment trusts that are listed, or about to be listed, on exchanges globally, focusing on investments in Europe, the Americas and the Asia Pacific. Investment Process: The Investment Manager is actively managing the Sub-Fund and combines a stock specific (bottom-up) selection process, which has a strong focus on a valuation-based stock selection methodology, with a secondary consideration of macroeconomic (top-down) factors. It seeks to identify and capitalise on investment
