Macquarie Global Listed Real Estate Fund Class A2 GBP Q (Dist.)

ISIN: LU2758229814

A sub-fund of Macquarie Fund Solutions, a Société d'Investissement à Capital Variable ("SICAV").

The Management Company of the SICAV is Lemanik Asset Management S.A.

## Objectives and investment policy

**Objective:** To provide investors with total returns through long-term capital appreciation and current income above the benchmark on a rolling three-year basis.

**Portfolio Securities:** Under normal conditions, Macquarie Global Listed Real Estate Fund (the "Sub-Fund") provides exposure to a diversified portfolio of global listed real estate, primarily real estate investment trusts that are listed, or about to be listed, on exchanges globally, focusing on investments in Europe, the Americas and the Asia Pacific. The Sub-Fund may also invest in other regions.

**Investment Process:** The Investment Manager is actively managing the Sub-Fund and combines a stock specific (bottom-up) selection process, which has a strong focus on a valuation-based stock selection methodology, with a secondary consideration of macroeconomic (top-down) factors. It seeks to identify and capitalise on investment

opportunities through an integrated approach to security-level analysis and macro themes impacting real estate markets. As the Sub-Fund is actively managed and the benchmark used as a performance reference only, the Sub-Fund's underlying portfolio composed by the Investment Manager in its whole discretion may differ significantly from the benchmark composition.

**Designed for:** This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

*Further details of other categories of investments that the Sub-Fund may make are set forth in Annex A of the Prospectus for the Sub-Fund.*

Any income earned is declared quarterly. You may elect to either receive such income in cash or reinvested in the Sub-Fund.

## Risk and reward profile

The risk indicator is based upon historical data and may not be a reliable indication for the future risk profile of the Sub-Fund. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean a "risk free" investment. The Sub-Fund's risk level of 6 results from the following factors:

- The Sub-fund primarily invests in a diversified portfolio of global listed real estate, primarily real estate investment trusts that are listed on developed markets globally.
- The Sub-Fund focuses on a single sector (real estate sectors) although it will be diversified through real estate countries (Europe, Americas and Asia-Pacific) and sectors (industrial, data centres, multifamily, single family, student accommodation, manufactured housing, self-storage, healthcare, aged care, retail, office, life science, telecommunication towers).

The value of an investment in the Sub-Fund can go up and down. When you sell your shares, they may be worth less than you paid for them. If

your currency as an investor is different from the reference currency of the Sub-Fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks. The Sub-Fund is subject to the following risks which may not be adequately captured by the indicator:

- Because the Sub-Fund expects to hold a concentrated portfolio of a limited number of securities, the Sub-Fund's risk may be increased because each investment has a greater effect on the Sub-Fund's overall performance.
- The Sub-Fund maintains a diversified portfolio representing real estate country and sector to limit any single sector or regional economic risk, which helps to minimize the impact that any one industry could have on the portfolio.
- The Sub-Fund invests in global listed real estate companies, meaning there are share market risks. This is mitigated by taking a Quality approach to the investment process, being well diversified across real estate and geography and ensuring underlying investments are backed by sustainable business models and contractual income.
- Certain securities could become hard to value, or to sell at a desired time and price.

*For full details of the Sub-Fund's risks, please refer to the Prospectus available as mentioned in section "Risk Considerations".*

## Charges

### One-off charges taken before or after you invest

<b>Entry charge</b>	None
<b>Exit charge</b>	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	

### Charges taken from the Fund over a year

<b>Ongoing charges</b>	0.99%
------------------------	-------

### Charges taken from the Fund under certain specific conditions

<b>Performance fee</b>	None
------------------------	------

The charges you pay as an investor are used to pay for the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The ongoing charges shown are based on an estimate of the charges. They exclude performance fee, if any, and portfolio transaction costs, except in the case of entry/exit charge paid by the Sub-Fund when buying or selling shares of another fund. This figure may vary.

You may be charged a fee when switching your investment to another sub-fund of the SICAV.

For more information about charges, please refer to sections 7 and 9 of the Prospectus and note "Fees and Expenses" of the most recent audited annual report, available at [www.macquarieim.com/investments/products/macquarie-fund-solutions](http://www.macquarieim.com/investments/products/macquarie-fund-solutions)
