What is this product?

Type: Shares in Nomura Global Listed Infrastructure Fund (the "Sub-Fund"), being a compartment of Nomura Fund Solutions, a Luxembourg incorporated investment company with variable capital qualifying as Undertaking for Collective Investment in Transferable Securities (UCITS).

Term: The share of the Sub-Fund is issued in registered form. The Sub-Fund does not have a fixed maturity date and is established for an unlimited duration though it may also be dissolved by compulsory redemption upon a decision of the Directors (i) if its Net Asset Value has decreased below the minimum holding deemed appropriate for its existence in the interest of the Shareholders, or (ii) if a change in its economical or political situation would have material adverse consequences for its investments, or (iii) in order to proceed to an economic rationalization.

Objective: To provide total return over the medium to long term comprising both capital growth and income by investing globally in companies operating in the infrastructure sector.

Portfolio Securities: Under normal conditions, the Sub-Fund mainly invests in listed securities of companies anywhere in the world that own or operate infrastructure assets, such as roads, utilities, airports, and communication networks. The Sub-Fund may use financial instruments to manage its exposure to various investment risks (hedging) and to seek investment gains.

Investment Process: The investment manager is actively managing the Sub-Fund and has all discretion with respect to the composition of the portfolio. Using its own fundamental analysis, the investment manager identifies and selects individual companies whose shares appear to be undervalued. The investment manager's strategy to attain the sustainable investment objective incorporates (i) exclusion screening and (ii) environmental, social and governance ("ESG") integrated fundamental analysis.

Benchmark: S&P Global Infrastructure Index Net TR USD. The benchmark is a performance reference and the Sub-Fund's underlying portfolio may differ significantly to the benchmark composition.

Income earned by the Sub-Fund is accumulated in the net asset value of this class and not distributed.

Intended retail investor: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years. This product is for professional investors with good investment knowledge, seeking growth through an actively managed fund invested in equities in the infrastructure industry. Investors should be looking to invest for at least five years and should appreciate that their capital will be at risk and that the value of their investment and any derived income may fall as well as rise. Particular performance risks include investing into equities in a single sector (infrastructure) and unusual market conditions.

Depositary: CACEIS Bank, Luxembourg Branch
