Nomura Emerging Markets Fund Class I GBP A(Dist.)

ISIN: LU1986413836

A sub-fund of Nomura Fund Solutions, a Société d'Investissement à Capital Variable ("SICAV").

The Management Company of the SICAV is FundSight S.A.

Objectives and investment policy

Objective: To provide investors with a long-term capital appreciation by investing in securities in emerging markets.

Portfolio Securities: Nomura Emerging Markets Fund (the "Sub-Fund") primarily invests in a carefully selected and diverse range of transferable securities of issuers located in emerging markets. At least 80% of the SubFund's net assets will be in investments of issuers of emerging market countries. The Sub-Fund primarily invests in a broad range of equity securities (shares and other similar instruments) of companies located in emerging market countries. The Sub-Fund may invest in companies of any size and may invest more than 25% of its net assets in the securities of issuers located in the same country. The Sub-Fund may invest in financial derivative instruments for efficient portfolio management. The Sub-Fund may be leveraged up to 30% of its net asset value as a result of its use of derivative instruments.

Investment Process: The investment manager is actively managing the Sub-Fund and has all discretion with respect to the composition of the portfolio. The Investment Manager believes that although market price and intrinsic business value are positively correlated in the long run, short-term divergences can emerge. The Sub-Fund seeks to take advantage of these divergences through a fundamental, bottom-up approach. The Sub-Fund invests in securities of companies with sustainable franchises when they are trading at a discount to the Investment Manager's intrinsic value estimate for that security. The Sub-Fund defines sustainable franchises as those companies with potential

to earn excess returns above their cost of capital over the long-term. Sustainability analysis involves identification of a company's source of competitive advantage and the ability of its management to maximise its return potential. The Investment Manager prefers companies with large market opportunities in which to deploy capital, providing opportunities to grow faster than the overall economy. Intrinsic value assessment is quantitatively determined through a variety of valuation methods including discounted cash flow, replacement cost, private market transaction, and multiples analysis.

Designed for: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 to 7 years.

Benchmark: MSCI Emerging Markets Net Return Index. The benchmark is a performance reference and the Sub-Fund's underlying portfolio may differ significantly to the benchmark composition.

Further details of other categories of investments that the Sub-Fund may make are set forth in Annex A of the Prospectus for the Sub-Fund.

You can place orders to buy or sell Sub-Fund shares at any time. Orders received on any given Luxembourg business day before 6 p.m. Luxembourg time will be processed at that day's share price.

Any income earned is declared yearly. You may elect to either receive such income in cash or reinvested in the Sub-Fund.

Risk and reward profile

The risk indicator is based upon historical data and may not be a reliable indication for the future risk profile of the Sub-Fund. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean a "risk free" investment. The Sub-Fund's risk level of 6 results from the following factors:

- The Sub-Fund primarily invests in the shares of companies located in emerging market countries.

The value of an investment in the Sub-Fund can go up and down. When you sell your shares, they may be worth less than you paid for them. If

your currency as an investor is different from the reference currency of the Sub-Fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks. The Sub-Fund is subject to the following risks which may not be adequately captured by the indicator:

- Investing in small and/or medium-sized companies typically exhibit greater risk and higher volatility than larger, more established companies.
- Certain derivatives could increase the Sub-Fund's volatility or expose the Sub-Fund to losses greater than the cost of the derivatives.
- Certain securities could become hard to value, or to sell at a desired time and price.

For full details of the Sub-Fund's risks, please refer to the Prospectus available as mentioned in section "Risk Considerations".

Charges

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	

Charges taken from the Fund over a year

Ongoing charges	0.92%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

The charges you pay as an investor are used to pay for the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The ongoing charges shown are based on expenses as of 30.06.2026. They exclude performance fee, if any, and portfolio transaction costs, except in the case of entry/exit charge paid by the Sub-Fund when buying or selling shares of another fund. This figure may vary.

You may be charged a fee when switching your investment to another sub-fund of the SICAV.

For more information about charges, please refer to sections 7 and 9 of the Prospectus and note "Fees and Expenses" of the most recent audited annual report, available at <https://mim.fgsfulfillment.com/download.aspx?sku=MFS-AR-EN>

Past performance

Past performance is not a reliable guide to future performance. The performance results are net of all ongoing charges but exclude any entry/exit charges that you might have to pay.

Performance is calculated in GBP.

The Sub-Fund was launched on 31 Jan 2020.

The share class was launched on 31 Jan 2020.

*The performance results covering periods prior to share class launch date relate to the performance of Delaware Investments Emerging Markets Fund, an Irish UCITS, which merged into the Sub-Fund on 31.01.2020. The cost and fee structure of the Delaware Investments Emerging Markets Fund is slightly different to the cost and fee structure of the Sub-Fund.
