What is this product?

Type

This is a Sub-Fund (the "Sub-Fund") of onemarkets Fund. onemarkets Fund is an investment company with variable share capital (SICAV) with multiple Sub-Funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term

The Sub-Fund is established for an unlimited duration. The Management Company can proceed unilaterally to a redemption of a share class of an investor or switch the holding to another share class if the investor no longer meets the qualifying criteria to maintain the share class he holds. The Board of Directors may decide under certain circumstances to compulsorily redeem all shares of the relevant Sub-Fund or share class at the Net Asset Value per share for the valuation date in respect of which such decision shall be effective, and to terminate and liquidate such Sub-Fund or share class.

Objectives

Investment Objective: The Sub-Fund's investment objective is to seek maximising total return, consistent with preservation of capital and prudent investment management.

Investment Strategy: The Sub-Fund shall not invest directly in commodities. The Sub-Fund promotes environmental characteristics by actively engaging with companies and issuers on material climate and biodiversity related matters, which may include encouraging companies to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments. The sub-fund is pursuing environmental and social characteristics both through a set of exclusion and active engagement with issuers in the portfolio. The Sub-Fund does not consider Principal Adverse Impact Indicators (PAIs) on sustainability factors in accordance with article Art. 7(1) of the Sustainable Finance Disclosure Regulation (SFDR) Regulation (EU) 2019/2088. The minimum amount of investments used to meet the environmental or social characteristics promoted by the Sub-Fund will be 51% of its net assets. In making investment decisions, the Investment Manager considers various quantitative and qualitative data relating to global economies and projected growth of various industrial sectors and asset classes. The Investment Manager uses a three-factor approach to evaluating asset classes and their risks in seeking to achieve the Sub-Fund's investment objective which consists of a) fundamental analysis relating to global economics and projected growth of various industrial sectors, b) valuation analysis, and c) assessment of market demand of and supply for asset classes. The Investment Manager evaluates these factors on an ongoing basis and uses a combination of direct investment, derivative exposure and marginally collective investment schemes to implement a resulting mix of asset classes within the Sub-Fund that reflects the Sub-Fund's investment objective.

Investment Policy: The Sub-Fund's investment universe comprises:

Government bonds, Corporate bonds, hybrid bonds¹¹, convertible bonds, subordinated bonds and perpetual bonds issued by financial and non-financial institutions (i.e., companies in the industrial and utilities sectors), Units of UCITS and/or of other UCIs eligible under article 41(1)e) of the 2010 Law, Money Market Instruments and funds, cash;

Equities and Equity-related Securities (such as warrants and securities which are convertible into equity securities), Fixed Income Instruments and/or investment in underlying collective investment schemes and/or derivatives (such as -among others- swap agreements, futures and options, which may be exchange traded or Over-The-Counter), as appropriate. The Sub-Fund's bond investments may be of any quality (investment grade or below). Investments in bonds with a rating below investment grade will not exceed 25% of the Sub-Fund's net assets. It may also use derivative instruments for investment purposes with the objective, among else, of an efficient management of cash flows and better coverage of markets. Investments in contingent convertible bonds ("CoCos") will not exceed 20% of the Sub-Fund's net assets. The Sub-Fund may not invest in units of other UCITS or other UCIs eligible under article 41(1)e) of the 2010 Law for more than 10% of its net assets. The Sub-Fund may also invest on an ancillary basis (i.e., up to 20% of the net assets of the Sub-Fund) in liquid assets. The minimum amount of investments used to meet the environmental or social characteristics promoted by the Sub-Fund will be 51% of its net assets. In case of investments in units of undertakings for collective investment in transferable securities or UCITS exchange traded funds (UCITS-ETFs) potential retrocessions will benefit the Sub-Fund. The Sub-Fund will not invest in defaulted or distressed securities.

Derivatives: The Sub-Fund may use financial derivatives for investment and hedging purposes.

Securities Financing Transactions: The Sub-Fund will enter into transactions under SFTR.

Techniques and Instruments: The Sub-Fund may use Efficient Portfolio Management Techniques. For more information, please refer to the prospectus.

Benchmark and use: The Sub-Fund does not use any index under the Benchmark Regulation.

SFDR classification: The Sub-Fund qualifies as a financial product under Art. 6 of SFDR.

Distribution policy: This is an accumulating share class.

Subscription and Redemption: Shares are issued on each Valuation Day at the issue price. Shareholders are entitled to request the redemption of their Shares at any time at the Net Asset Value per share.

Currency: The reference currency of the Sub-Fund is the EUR.

Practical information: The Sub-Fund depositary is CACEIS Bank, Luxembourg Branch. Further information: This Key Information Document is prepared for a share class. Assets and liabilities of each Sub-Fund of onemarkets Fund SICAV are segregated, meaning that your investment in this Sub-Fund is only impacted by profits and losses in this Sub-Fund. The annual report, semi-annual report, prospectus, latest share price, and other practical information are available in English, free of charge, at www.structuredinvest.lu

Intended Retail Investor

This share class is open for retail investors. An investment in this Sub-Fund is suitable only for investors who are able to appraise the risks and economic value of the investment. The investor must be prepared to accept an increased volatility of the Sub-Fund and potentially high capital losses in order to achieve above-average potential investment performances. The Sub-Fund is intended for investors with a medium to long-term investment horizon.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.
This product does not include any protection from future market performance so you could lose some or all of your investment.
For more information on risks the PRIIP is exposed to, please refer to “Appendix 5: Sub-Funds Specific Risk Factors” of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The tax legislation of the retail investor’s home Member State may have an impact on the actual payout.
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

What happens if Structured Invest S.A. is unable to pay out?

The assets of the Sub-Fund are held in safekeeping by its depositary, CACEIS Bank, Luxembourg Branch (the “Depositary”). In the event of the insolvency of the management company, the Sub-Fund’s assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary’s insolvency, or someone acting on its behalf, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations). The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time. There is no arranged compensation or guarantee scheme for investors in the Sub-Fund.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	EUR 471	EUR 1 059
Annual cost impact (*)	4.7%	2.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.5 % before costs and 1 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to EUR 300

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Possible share class specific redemption fees have to be taken into account for disinvestments. You can redeem your investment at any time as set out in the prospectus. You may receive less than expected if you cash in earlier than the RHP since the Fund will be less likely to achieve its objectives. The RHP must not be taken as a guarantee or an indication of future performance, return or risk levels.
