onemarkets Fund SICAV is a UCITS authorized in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF) in relation to this Key Information Document (KID). This PRIIP is authorised in Luxembourg.

Structured Invest S.A. is authorised in Luxembourg and regulated by Commission de Surveillance du Secteur Financier (CSSF).

This document is dated 30/10/2025

What is this product?

Type

This is a Sub-Fund (the "Sub-Fund") of onemarkets Fund. onemarkets Fund is an investment company with variable share capital (SICAV) with multiple Sub-Funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term

The Sub-Fund is established for an unlimited duration. The Management Company can proceed unilaterally to a redemption of a share class of an investor or switch the holding to another share class if the investor no longer meets the qualifying criteria to maintain the share class he holds. The Board of Directors may decide under certain circumstances to compulsorily redeem all shares of the relevant Sub-Fund or share class at the Net Asset Value per share for the valuation date in respect of which such decision shall be effective, and to terminate and liquidate such Sub-Fund or share class.

Objectives

Investment Objective: The Sub-Fund's investment objective is to invest in global equity markets with a focus on sustainability leaders as determined by the Investment Manager. In doing so, the Sub-Fund takes environmental, social, human rights, governance, and business behaviour factors into account over a long-term investment horizon.

Investment Strategy: The sustainability factors comprising the Sub-Fund's investment objective are analysed through SRI Research by the Investment Manager to assess how sustainable development and long-term issues are taken into account in the strategy of an issuer. Based on a combination of the results of the external and/or internal analyses of the sustainability factors, an internal rating is derived monthly (the "SRI Rating") and is afterwards assigned to a corporate or sovereign issuer. SRI Rating is to be understood as an internal rating assessment which is based on SRI Research. Both the SRI Rating and the GHG intensity factor are used to rank and select or weight securities for the portfolio construction.

Investment Policy: The Sub-Fund invests at least 51% of its net asset value in equities and similar securities. Equities also include index certificates, equity certificates, other comparable certificates and equity baskets. In addition, the Sub-Fund is not bound by any sector or country restrictions, although exposure to emerging markets is limited to 40%, but the Sub-Fund does not invest more than 15% in Hong Kong-listed equities. The Sub-Fund may invest without restriction in instruments denominated in currencies other than the reference currency (EUR). The Sub-Fund will invest no more than 10% of its net assets in shares or units of other UCITS or other UCIs. To increase investment returns, the investment manager

may use financial instruments and derivatives for investment and hedging purposes, both long and short positions to vary asset, currency, and market allocation in response to market conditions and opportunities. Under no circumstances will the Sub-Fund use external (debt) capital as leverage for investment purposes. A decline in fund assets due to the use of borrowed capital, in particular debt, is therefore ruled out. At least 90% of the Sub-Fund's securities and instruments are used to meet the environmental or social characteristics advertised. For more information, please refer to the prospectus.

Derivatives: The Sub-Fund may use financial derivatives.

Securities Financing Transactions: The Sub-Fund will not enter into transactions under SFTR.

Techniques and Instruments: The Sub-Fund will not use Efficient Portfolio Management Techniques. For more information, please refer to the prospectus.

Benchmark and use: The Sub-Fund does not use any index under the Benchmark Regulation.

SFDR classification: The Sub-Fund qualifies as a financial product under Art. 8 of SFDR.

Distribution policy: This is an accumulating share class.

Subscription and Redemption: Shares are issued on each Valuation Day at the issue price. Shareholders are entitled to request the redemption of their Shares at any time at the Net Asset Value per share.

Currency: The reference currency of the Sub-Fund is the EUR.

Practical information: The Sub-Fund depositary is CACEIS Bank, Luxembourg Branch. Further information: This Key Information Document is prepared for a share class. Assets and liabilities of each Sub-Fund of onemarkets Fund SICAV are segregated, meaning that your investment in this Sub-Fund is only impacted by profits and losses in this Sub-Fund. The annual report, semi-annual report, prospectus, latest share price, and other practical information are available in English, free of charge, at www.structuredinvest.lu

Intended Retail Investor

This share class is open for retail investors. An investment in this Sub-Fund is suitable only for investors who are able to appraise the risks and economic value of the investment. The investor must be prepared to accept an increased volatility of the Sub-Fund and potentially high capital losses in order to achieve above-average potential investment performances. The Sub-Fund is intended for investors with a medium to long-term investment horizon.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. The risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For more information on risks the PRIIP is exposed to, please refer to "Appendix 5: Sub-Funds Specific Risk Factors" of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The tax legislation of the retail investor's home Member State may have an impact on the actual payout.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 4 years			
Example Investment: USD 10 000			
Scenarios		If you exit after 1 year	If you exit after 4 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 4 540	USD 4 230
	Average return each year	-54.60%	-19.35%
Unfavourable	What you might get back after costs	USD 7 680	USD 9 990
	Average return each year	-23.20%	-0.03%
Moderate	What you might get back after costs	USD 10 370	USD 14 000
	Average return each year	3.70%	8.78%
Favourable	What you might get back after costs	USD 14 850	USD 17 590
	Average return each year	48.50%	15.16%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between September 2024 and October 2025.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between April 2019 and April 2023.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between March 2020 and March 2024.

What happens if Structured Invest S.A. is unable to pay out?

The assets of the Sub-Fund are held in safekeeping by its depositary, CACEIS Bank, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the management company, the Sub-Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations). The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time. There is no arranged compensation or guarantee scheme for investors in the Sub-Fund.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	USD 728	USD 1 995
Annual cost impact (*)	7.3%	3.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.5 % before costs and 8.8 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 5.00% of the amount you pay in when entering this investment.	Up to USD 500
Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.25% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 225
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 3
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	USD 0

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Possible share class specific redemption fees have to be taken into account for disinvestments. You can redeem your investment at any time as set out in the prospectus. You may receive less than expected if you cash in earlier than the RHP since the Fund will be less likely to achieve its objectives. The RHP must not be taken as a guarantee or an indication of future performance, return or risk levels.

How can I complain?

If you are not entirely satisfied with any aspect of the Sub-Fund, the Management Company or the person who has given you advice on or sold the fund to you and you wish to complain, details of our complaints handling process are available on our website www.structuredinvest.lu. Additionally, you can also submit complaints to us: By mail: Structured Invest S.A., 8-10, rue Jean Monnet, L-2180 Luxembourg. By telephone: +352 248 248 88 Mon - Fri from 9:00 a.m. to 4:00 p.m. Luxembourg time. Or via email: complaintssi.uib.lu@unicredit.eu

In the event of a complaint, please describe the underlying facts in as much detail as possible and send us all the necessary documents. We will respond in writing only within no later than one month from the date of sending of the complaint.
