What is this product?

Type

This is a Sub-Fund (the "Sub-Fund") of onemarkets Fund. onemarkets Fund is an investment company with variable share capital (SICAV) with multiple Sub-Funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term

The Sub-Fund is established for an unlimited duration. The Management Company can proceed unilaterally to a redemption of a share class of an investor or switch the holding to another share class if the investor no longer meets the qualifying criteria to maintain the share class he holds. The Board of Directors may decide under certain circumstances to compulsorily redeem all shares of the relevant Sub-Fund or share class at the Net Asset Value per share for the valuation date in respect of which such decision shall be effective, and to terminate and liquidate such Sub-Fund or share class.

Objectives

Investment Objective: The Sub-Fund seeks to provide income and as a secondary objective capital appreciation over the recommended holding period.

Investment Strategy: The Sub-Fund has the flexibility to invest in a broad range of income producing securities from around the world, including in emerging markets. This may include equities, equity linked instruments (ADRs and GDRs), government and corporate bonds, subordinated bonds and Money Market Instruments. The Sub-Fund is not bound by any country, region or industry/sector constraints.

Investment Policy: The Sub-Fund may invest up to 50% of its net assets in bond which are below investment grade (B) and up to 20% of its net assets in unrated bonds. The selection process of fixed income investments is based on fundamental analysis. In case of downgrade, the Investment Manager carries on analysis of issuer fundamentals, a relative value analysis and fixed income security evaluation and determines the course of action, in the best interest of the investors. The Sub-Fund may gain the following exposure:

- up to 100% of the Sub-Fund's net assets in equities and equity-linked instruments.
- Up to 20% in asset-backed and mortgage-related securities, CLO, CMO and convertible securities.
- Up to 100% of its net assets in Money Market Instruments.

Emerging Markets may represent up to 30% of the total assets. Furthermore, the Sub-Fund may invest in debt instruments with loss absorption features. These instrument may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger events. It will also invest up to 10% of its assets in UCITS and other UCIs eligible and will not invest more than 10% of its

net assets in debt securities issued and/or guaranteed by a single sovereign issuer which is below investment grade or unrated. The Sub-Fund may invest up to 5% of its net assets directly in insurance-linked securities. The Sub-Fund's net derivative exposure may be up to 50% of its net assets. The Sub-Fund may invest without limitation in instruments denominated in currencies other than the reference currency (EUR). The Sub-Fund may use strategies to hedge currency risks. For more information, please refer to the prospectus.

Derivatives: The Sub-Fund may use financial derivatives to reduce various risks and as a way to gain exposure.

Securities Financing Transactions: The Sub-Fund may enter into transactions under SFTR.

Techniques and Instruments: The Sub-Fund may use Efficient Portfolio Management Techniques. For more information, please refer to the prospectus.

Benchmark and use: The Sub-Fund does not use any index under the Benchmark Regulation.

SFDR classification: The Sub-Fund qualifies as a financial product under Art. 6 of SFDR.

Distribution policy: This is an accumulating share class.

Subscription and Redemption: Shares are issued on each Valuation Day at the issue price. Shareholders are entitled to request the redemption of their Shares at any time at the Net Asset Value per share.

Currency: The reference currency of the Sub-Fund is the EUR.

Practical information: The Sub-Fund depositary is CACEIS Bank, Luxembourg Branch. Further information: This Key Information Document is prepared for a share class. Assets and liabilities of each Sub-Fund of onemarkets Fund SICAV are segregated, meaning that your investment in this Sub-Fund is only impacted by profits and losses in this Sub-Fund. The annual report, semi-annual report, prospectus, latest share price, and other practical information are available in English, free of charge, at www.structuredinvest.lu

Intended Retail Investor

This share class is open for retail investors. An investment in this Sub-Fund is suitable only for investors who are able to appraise the risks and economic value of the investment. The investor must be prepared to accept a significant volatility of the Sub-Fund and potentially high capital losses in order to achieve high potential investment performances. The Sub-Fund is intended for investors with a long-term investment horizon.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For more information on risks the PRIIP is exposed to, please refer to "Appendix 5: Sub-Funds Specific Risk Factors" of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The tax legislation of the retail investor's home Member State may have an impact on the actual payout.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

What happens if Structured Invest S.A. is unable to pay out?

The assets of the Sub-Fund are held in safekeeping by its depositary, CACEIS Bank, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the management company, the Sub-Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations). The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time. There is no arranged compensation or guarantee scheme for investors in the Sub-Fund.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 703	EUR 1 503
Annual cost impact (*)	7.0%	3.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.2 % before costs and -1.8 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Possible share class specific redemption fees have to be taken into account for disinvestments. You can redeem your investment at any time as set out in the prospectus. You may receive less than expected if you cash in earlier than the RHP since the Fund will be less likely to achieve its objectives. The RHP must not be taken as a guarantee or an indication of future performance, return or risk levels.
