(Agreement Number GP 05000030 delivered on the 27/09/2005).

Date of Production of the KID: 11/06/2026

What is this product?

Type

The Sub-Fund is a compartment of the Fund, the latter being a Luxembourg SICAV (Société d'Investissement à Capital Variable / Investment company with variable capital), qualifying as an undertaking for collective investment in transferable securities ("UCITS") under Part I of the 2010 Law. It has no defined maturity.

Term

The product has no maturity date. However, the Sub-Fund could be terminated under the conditions set out in the Prospectus and in the Articles of incorporation of the Fund.

Objectives

Investment Objective

The Sub-Fund is a diversified and actively managed sub-fund which aims to deliver a performance higher than the performance of the Bloomberg Euro-Aggregate Corporate Index (LECPTREU Index). The Sub-Fund's benchmark, which is used for performance fee calculation purposes only and should not be understood as constraining the Sub-Fund's portfolio composition, is therefore the Bloomberg Euro-Aggregate Corporate Index (LECPTREU Index).

Investment Policy

Achievement of these objectives requires the implementation of arbitrage strategies exploiting opportunities in the pricing of securities, financial derivatives instruments and debt obligations. These strategies are related to debt markets, futures markets or financial instruments with an optional component, mainly in Europe and North America, but also potentially in the Middle East, Asia, South America, and more selectively in other locations, such as Australia and South Africa. Strategies implemented by the Sub-Fund are focused on but not limited to credit market analysis. Capital structure strategies and long/short strategies will be implemented too. The Sub-Fund may pursue equity strategies provided that these strategies are consistent with the Sub-Fund's investment objective and policy.

Share class policy

Net revenues of the Sub-Fund are reinvested.

Processing of subscription and redemption orders

Subscription and redemption orders are centralized every business day before 5 p.m. (Luxembourg time) by the Depositary CACEIS Bank, Luxembourg Branch. They are processed based on the next business day Net Asset Value.

Intended retail Investor

This fund is intended for retail and institutional investors who have a good knowledge and experience of international financial markets. As it has no capital protection, retail investors must invest in the fund in the light of their financial situation and be able to potentially bear losses on their investment. Retail investors should also check the adequacy of their investment horizon with the recommended investment period which should not be less than 3 years. Strategies implemented in the fund are aiming to preserve capital and deliver absolute and regular performances and as such are compliant with retail investor's objectives seeking absolute returns with low volatility although these goals may not be achieved.

Depositary

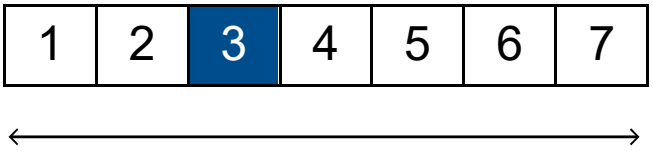

CACEIS Bank, Luxembourg Branch

What are the risks and what could I get in return?

Risk Indicator

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The synthetic risk indicator gives an idea of the level of risk on this product relative to others. It shows the probability that this product will incur losses if the markets move, or if we cannot pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

As this product does not offer any protection against market fluctuations, you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but not necessarily all charges payable to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts that you receive. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		**3 years**	
Example Investment:		**EUR 10 000**	
Scenarios		**If you exit after 1 year**	**If you exit after 3 years**
Minimum	There is no guaranteed minimum return. You could lose some or all of your investment.		
Stress	**What you might get back after costs**	EUR 7 600	EUR 7 450
	Average return each year	-24.00%	-9.35%
Unfavourable	**What you might get back after costs**	EUR 7 600	EUR 7 790
	Average return each year	-24.00%	-7.99%
Moderate	**What you might get back after costs**	EUR 10 140	EUR 10 400
	Average return each year	1.40%	1.32%
Favourable	**What you might get back after costs**	EUR 11 310	EUR 12 580
	Average return each year	13.10%	7.95%

The stress scenario shows what you might get back in extreme market circumstances.
Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2019 and 2022.
Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2017 and 2020.
Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

What happens if Syquant Capital SAS is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer. The assets of the Portfolio and the Fund are held in safekeeping by its depositary, CACEIS Bank, Luxembourg Branch (the “Depositary”). In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary). Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables set out the amounts deducted from your investment to cover the different types of cost. These amounts depend on how much you invest, and on how long you hold the product. The amounts shown here are illustrations based on an example of the investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000

	If you exit after 1 year	**If you exit after 3 years**
Total costs	EUR 288	EUR 489
Annual cost impact (*)	2.9%	1.6% each year

(*) It shows the extent to which the costs reduce your annual return over the holding period. For example, it shows that if you exit at the end of the recommended holding period, it is likely that your average annual return will be 2.9% before costs, and 1.3% after this deduction.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. Please note that the figures shown here do not include any additional arrangement or management fees that your distributor or advisor may charge, nor any insurance costs payable by the Fund.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.0% of the amount that you pay when first making the investment.	Up to EUR 200
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 83
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 5
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	12.0% net above Bloomberg Euro Aggregate Corporate Index with High Water Mark.	EUR 0

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The Recommended Holding Period has been set to 3 years based on the Investment Objectives of the Sub-Fund and the strategies implemented as described in its Prospectus. However, each Valuation Day will be a redemption day and no redemption charge are foreseen in the Prospectus for any redemption prior to the Recommended Holding Period's end. Redemptions must be received by the Registrar and Transfer Agent or by any appointed distributor no later than 5 pm (Luxembourg time) on the business day preceding the relevant Valuation Day.

How can I complain?

SYQUANT Capital, in accordance with the regulation, has implemented and maintains an operational procedure to quickly and efficiently process complaints. Any complaint may be referred to:
- RCCI@syquant.com
- Or by regular mail: 25 avenue Kléber 75116 Paris, France.

For further information please refer to the Customer Complaints Management segment of our website (https://www.syquant-capital.fr/en/regulatory-information/).
